

BACKGROUND

and the management of Indonesian natural resources set on the 1945 Amendment article 33 which says "Soil, water and the natural resources are controlled by the state and being used for the benefit of the people". Those natural resources are used as a basis for the nation development to welfare the people for the recent generation but also the future generation. The natural resources decrease continuously due to the development that ignores sustainable development. Environmental damage symptoms which are signs that the development process has exceeded the limit of supporting and carrying the environment. The environmental damages are getting worse lately trigger the natural disaster such as landslide, climate change, and others.

One of environmental damage problem is our adherence to the environmental values contained in the religion, customs and law. These problems happen as the result of the moral crisis of the nation. Environmental damage is the mental attitude which animates and motivates people, or nation to aware on the sustainability at the time of managing the resources and the environment.

Geography information is one of important roles on the study, because geography characterized by the study of the earth. Geospatial information is also able to be used as the basic of analysis and direction for the environmental management. As the result it can limit the damage of natural disaster for now and the future.

AIMS

1. Increasing public awareness about environmental issues and disaster.
2. Raising public awareness about the importance of environmental protection and disaster mitigation.
3. Improving public knowledge of the importance of geospatial information for environmental management and disaster.
4. To increase spatial intelligence of community.

TARGETS

The targets of International Seminar IGI's Annual Scientific Meeting 2012 are International and National Geographer which consist of : geographic researchers , academics (lecturers and students), practitioners (the expert on the field of geography and who work for the state or private institution), geography teachers both from Junior and Senior High School, and others that is personal or groups of environmentalists.

THEME AND SUB THEME

Main Theme:

The Use of Geospatial Information for Developing the People Environmental Awareness in order to build the Nation Character

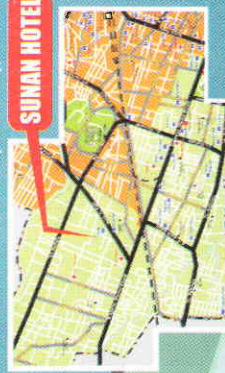

Sub Theme:

1. Geospatial Information for the Environment Management
2. Geospatial Information in Disaster Mitigation
3. Environmental Concern in Urban Arrangement
4. Climate Change
5. People Spatial Intelligence in Education
6. Development of environment awareness to build the Nation Character

VENUE AND TIME

Venue : Sunan Hotel , Jln. Ahmad Yani No 40
Surakarta, 57143.

Time : Saturday-Sunday, 3 - 4 November Tahun 2012.

SPEAKERS

Keynote Speaker : Indonesian Environmental Minister
Theme : Nation Character Building Through Sustainable Development

Main Speaker

1. Dr. Christopher Gomez (Univ of Conterbury, New Zealand).
Theme: *Environmental Management For Sustainable Development*
2. Dr. Ajay Chandra Lal (Tribhuvan University Kathmandu, Nepal).
Theme : *Environmental Concern in Urban Arrangement*
3. Dr. Asep Karsidi (Head of BIG).
Theme: *Geospatial Information in Environment-Management*
4. Dr. Syamsul Maarif (Head of BNPB) Theme: *Environmental Concern- In Disaster Management*
5. Prof. Dr. Suratman Worosudjito, M.Sc (Head of IGI)
Theme : *Developing the Spatial Intelligence in Education*
6. Dr. Chatarina Muryani, M.Si (University Sebelas Maret)
Theme : *Integration the Material of Environmental Conservation and Disaster Mitigation into Scholl Curriculum*

Call For The Paper

The committee invites you all to send the supporting papers/articles or posters. The papers which pass the selection have to be presented and will be published on the form of proceeding with ISBN after passing the review and revision. The posters will be exhibited during the seminar.

Requirements

1. The abstract is in English
2. The papers/articles are preferred the English one, but still possible for Indonesian papers/articles.
3. Writing format: doc, areal 10, 1 space, margin (top-bottom-left-right) is 3 cm, 10 pages maximum included pictures, tables, and references.
4. Full Paper format: title, main writer and member names, main writer institution, phone number and email address, abstract, introductory, methods, result and analysis, conclusion, references.
5. The abstract should be sent to pitigisolo@gmail.com before 25 September 2012
6. For papers that pass the review, the full papers should be sent to pitigisolo@gmail.com before 20 October 2012. Committee approval could be seen in website: <http://geo.fkip.uns.ac.id>
7. Poster size: A0 sent the physical form to committee of IGI's Annual Scientific Meeting at Prodi P. Geografi FKIP UNS, Jln. Ir. Sutami 36 A Surakarta, 57126 before 20 October 2012.
